

# Survey Results: Impacts of COVID-19 on Our Industry

Originally published by the following source: [SBC Magazine \(https://www.sbcmag.info/\)](https://www.sbcmag.info/) — March 27, 2020  
by Sean Shields

Starting on March 18, *SBC Magazine* began conducting an online survey of component manufacturers (CMs), intent on tracking the impact of the COVID-19 Coronavirus on the industry. Below are four charts that illustrate the survey responses for the first two weeks. We will continue to conduct this survey each week on Tuesdays in *SBC Industry News* and publishing the aggregate results on Fridays. Thank you to all who have taken the time to participate and contributed to this data.

SBC Magazine appreciates your input, and *continually seeks to improve the value it provides* (</news/2016/feb/what-makes-sbc-industry-news-valuable>) to the market. If you have any comments or corrections on this article, please email us (<mailto:editor@sbcmag.info?subject=Article%20Comment>) and we can publish your comments.
